PROFESSIONAL SUMMARY

Computer Science graduate and MERN Stack Developer with 1+ years of internship experience building production-ready web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Proven experience in component-based architecture, state management, REST API integration, and cross-functional agile collaboration across international remote teams. Seeking Frontend Developer, React Developer, Full Stack (MERN) Developer, or Software Developer opportunities.

WORK EXPERIENCE

Frontend Developer Intern

Apr 2026 - Jul 2026

PitchMatter, USA

Remote

- Developed ~80% of the UI for the Refer & Earn module of the **zynk.ing** platform, building pages such as Recent Transactions, Unlock Tiers, Rewards, and Referral History from scratch using React, TypeScript, Tailwind CSS, and shaden/ui.
- Built ~60% of the Subscription Management module for the **PitchMatter Admin Dashboard**, integrating REST APIs to manage plans, subscriptions, subscription status, and real-time dashboard data through efficient state management.

Full Stack Developer Intern

Mar 2026 - Jun 2026

Avijo Health Care Services, India

Remote

- Designed and developed controllers and middleware using Node.js and Express.js, enhancing authentication, authorization, and route security while collaborating with QA and deployment teams to deliver production-ready backend features.
- Implemented ~85% of the Login and Registration modules for **alpha.avijo.in** using React.js, integrating email/mobile OTP authentication, password-based login, and ABDM services while redesigning the UI to improve user experience.

Frontend Developer Intern

Mar 2025 - Sep 2025

Proceedit, Spain

Remote

- Collaborated with an international team to redesign the company's website, improving user interface consistency. Designed and prototyped responsive interfaces in Figma, creating reusable components and design systems.
- Implemented frontend screens with FlutterFlow for the production-ready trading platform **Continuous Market Insights (CMI)**.

PROJECTS

Bazario - A Full-Stack E-Commerce Platform

Feb 2026

MERN Stack, Tailwind CSS, shaden/ui, Razorpay

- Engineered a responsive full-stack e-commerce platform featuring user authentication, user management, product catalog, shopping cart, order management, and Razorpay payment integration.
- Created an admin dashboard for managing products, users, roles, and order processing while delivering an intuitive user experience.
- UI Screenshots: tinyurl.com/332ubx59 | Live Demo: bazario-e-commerce-frontend.onrender.com

Taskify - Full-Stack Task Management System

Dec 2025

MERN Stack, Tailwind CSS

- Built a MERN-based task management application with profile management, task creation, assignment, and status tracking.
- Delivered a responsive, user-friendly interface with dedicated pages for pending and completed tasks, enabling efficient task organization and progress management.
- Live Demo: taskify-frontend-c7lm.onrender.com

SKILLS

Languages & Frontend Technologies: JavaScript (ES6+), TypeScript, React.js, HTML5, CSS3, Tailwind CSS, shaden/ui, DaisyUI

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT

Tools & Platforms: Git, GitHub, Figma, FlutterFlow, Postman, Render, Jira, Slack

EDUCATION

Bachelor of Technology (CSE) - Jawaharlal Nehru Technological University Hyderabad

Nov 2022 - Apr 2026

CGPA: 8.0/10.0

Class XII - Sri Chaitanya Junior Kalasala

Jun 2020 - Mar 2022

Aggregate: 91.5%

PUBLICATIONS & ACHIEVEMENTS

- Publication:** Published a research paper titled "*Bazario: A Full-Stack E-commerce Web Application*" in the IJCRT journal.
- Professional Achievement:** Successfully completed 3 software development internships and received internship completion certificates and recommendation letters.
